Web GUI Mockups:

1. COLOR PALETTE

The chosen colors were selected to create a user-friendly shopping experience, ensuring a clean and professional look:

- **Background:** #EEEEEE (Light gray for a neutral and modern feel)
- **Text and Main Elements:** #333333 (Dark grey for readability and contrast)
- **Prices and Client Account:** #CC0000 (Red to highlight key information)
- **Selected Button:** #2B78E4 (Blue to indicate active selections)
- **Unselected Button:** #9FC5F8 (Light blue for clarity and differentiation)
- **Admin Account:** #E69138 (Orange to distinguish admin-related features)
- **Add Image Button:** #F1C232 (Yellow to draw attention to the upload function)

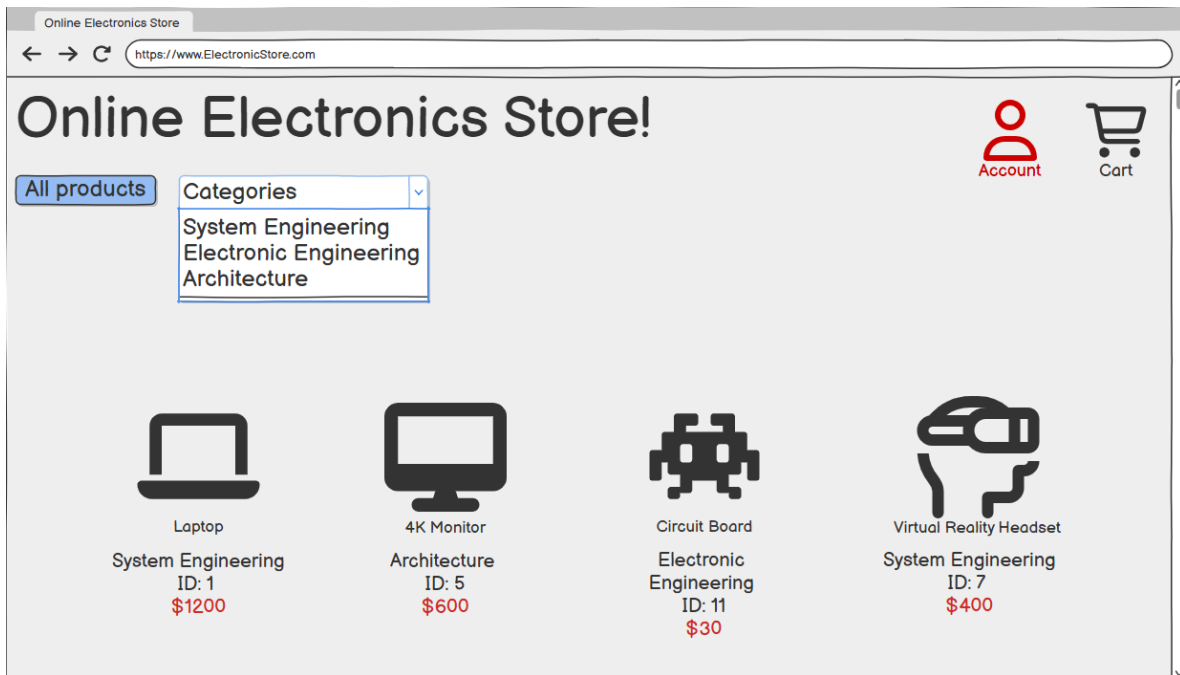

The color scheme follows the client's recommendation to use basic, non-distracting colors, ensuring that customers focus on the most important elements-products and prices. Additionally, product images were updated based on client feedback.

In the future, a custom logo for the store could be designed to strengthen brand identity.

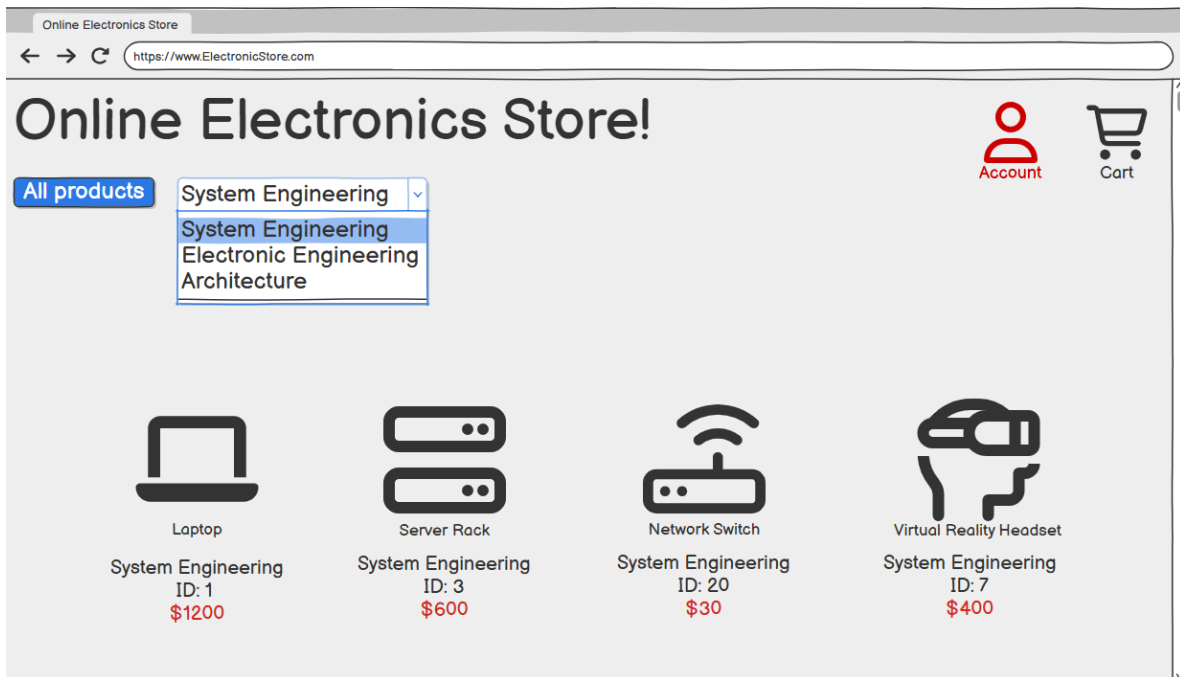

QUESTIONS FOR THE CLIENT

- Are there any specific requirements for the placement of the company logo?
- Do you prefer a more minimalist design or with more visual elements?
- Is there a preference regarding the arrangement of categories and products on the main screen?

Checkout customer page:

The screenshot shows a web browser window with the title 'Online Electronics Store' and the URL 'https://www.ElectronicStore.com'. The page header includes the store name and two icons: a red person icon labeled 'Account' and a shopping cart icon labeled 'Cart'. The main heading is 'Online Electronics Store!'. Below it, a message says 'Please complete the information to finalize the purchase'. The form contains six input fields: 'Name:', 'Card number:', 'Direction:', 'Expiration date:', 'Country:', and 'Security code:', each followed by a text box with three dots. There is also an 'Email:' label with a text box. At the bottom, there is a blue button with the text 'Finish the purchase!'.

Customer page with completed purchase alert:

The screenshot shows the same web browser window as the previous one, but with a purchase alert. The alert is a white box with a black border and a drop shadow, containing the text 'Your purchase has been approved' and 'Thank you for your purchase!'. The form fields and the 'Finish the purchase!' button are still visible.

2. Web Services

Based on user stories, the following web services are defined:

Name	Endpoint	HTTP Method	Inputs	Outputs
<u>List products</u>	<i>/api/products</i>	GET	None	List of available products
<u>Filter products by category</u>	<i>/api/products/category/{category}</i>	GET	category (string)	List of products filtered by category
<u>Add product</u>	<i>/api/products</i>	POST	product_id, name, category, price	Confirmation that the product was added
<u>Edit product</u>	<i>/api/products/{product_id}</i>	PUT	product_id, name, category, price	Confirmation that the product was updated
<u>Delete product</u>	<i>/api/products/{product_id}</i>	DELETE	product_id	Confirmation that the product was removed
<u>Add to shopping cart</u>	<i>/api/cart</i>	POST	product_id, quantity	Confirmation that the product was added to the cart
<u>See shopping cart</u>	<i>/api/cart</i>	GET	None	List of products in the shopping cart and total to pay
<u>Process purchase</u>	<i>/api/checkout</i>	POST	user_details (name, address, email, et cetera), payment_details	Purchase confirmation and order details
